About the Survey

Client: Sex Matters Fieldwork Period: May 15, 2023 Sampling Method: Online Population Sampled: All adults (18+) in Great Britain

Sample Size: 2,432

Data Collection: The data is acquired from a panel provider offering participants the chance to win money. The sampling relies on an online quota approach. Specifically, participants are sampled to meet Office of National Statistics quotas for gender, age, region, socio-economic group, vote in the 2019 general election, and vote in the 2016 Brexit referendum. No criteria are used to over- or undersample respondents. To ensure the polling is representative of the target population, we use official and reliable data sources to match the sample to demographic population targets.

Weighting: The sample has been weighted to be representative of the population on the following variables: gender, age, socio-economic group, region, vote in the 2019 General Elections and 2016 Brexit referendum vote.

Contact: info@peoplepolling.org

Additional Information: PeoplePolling is a member of the British Polling Council (BPC) and abides by its rules.

Q1. An elderly woman needs intimate personal health care and has asked for female carers. Should the care agency be allowed to exclude transwomen from applying for this job? If this is a subject that you would rather not answer questions on, please select "Prefer not to say"
