## PeoplePolling

About the Survey
Client:
Fieldwork Period: June 26, 2024
sampling Method: Online
Population Sampled: All adults (18+) in Great Britain
Sample Size: 2,146
Data Collection: The data is acquired from a panel provider offering participants the chance to win money. The sampling relies on an online quota approach. Specifically, participants are sampled to meet Office of National Statistics quotas for gender, age, region, socio-economic group, vote in the 2019 general election, and vote in the 2016 Brexit referendum. No criteria are used to over- or undersample respondents. To ensure the polling is representative of the target population, we use official and reliable data sources to match the sample to demographic population targets.
Weighting: The sample has been weighted to be representative of the population on the following variables: gender, age
ocio-economic group, region, vote in the 2019 General Elections and 2016 Brexit referendum vote
